

# Portal26 GenAI Adoption Management Platform (AMP)

Enabling Fearless GenAI Adoption Across the Enterprise

*“Portal26 is the enabler of GenAI technology in the enterprise.”*

- Frost & Sullivan 2024 Product Leadership Award in the Global AI Application Security Industry

Portal26 is the ultimate enabler of GenAI adoption in the enterprise. Portal26's GenAI Adoption Management Platform (AMP) enables enterprises to rapidly deploy critical capabilities that immediately remove eight major blockers to effective, responsible, and secure enterprise GenAI adoption.

## Portal26 GenAI Adoption Management Capabilities

**1** REAL-TIME GENAI DISCOVERY

Discover and eliminate Shadow AI across the enterprise

**2** GRANULAR GENAI VISIBILITY

Monitor GenAI tools, users, prompts, attachments, and more

**3** GENAI SECURITY AND RISK

Measure and mitigate security, privacy, and other GenAI risk

**4** GENAI AUDIT AND FORENSICS

Perform granular historical audit and forensic investigations

**5** USAGE INTENT AND IMPACT

Understand usage intent and on-the-ground impact of GenAI

**6** FINOPS AND ROI ANALYSIS

Analyze use case based ROI for GenAI strategy, investment

**7** GENAI POLICY MANAGEMENT

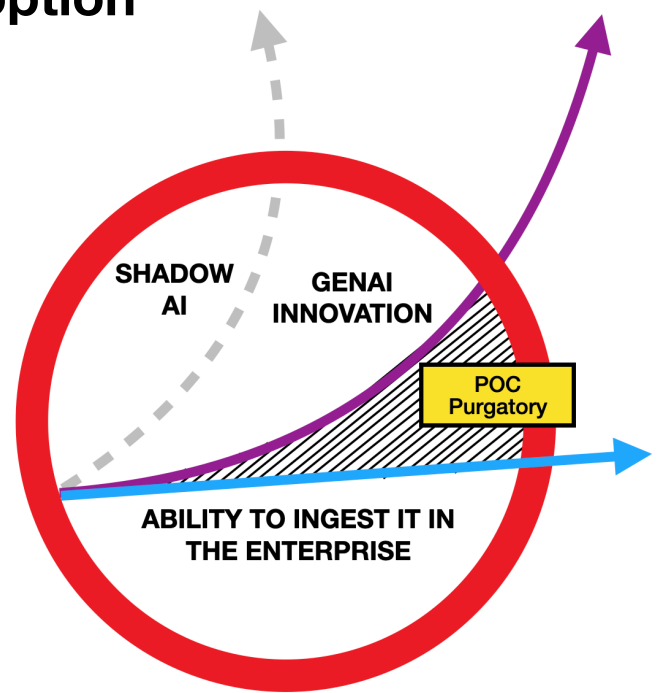

Administer and policy based on usage, correlate with risk

**8** EMPLOYEE GENAI EDUCATION

Educate users in real-time based on behavior and policy

## High Investment Coupled With Lack of Adoption Proficiency is Destroying GenAI ROI

- Competitive pressure to adopt GenAI far exceeds the enterprise's proficiency to effectively ingest it
- Invisible, unmonitored and unmeasurable GenAI is exploding while GenAI leaders are unable to gain sufficient confidence to officially sanction usage
- Sanctioned GenAI POCs are stalled and not moving into production due to lack of governance, security, reputation risk, and inability to model ROI

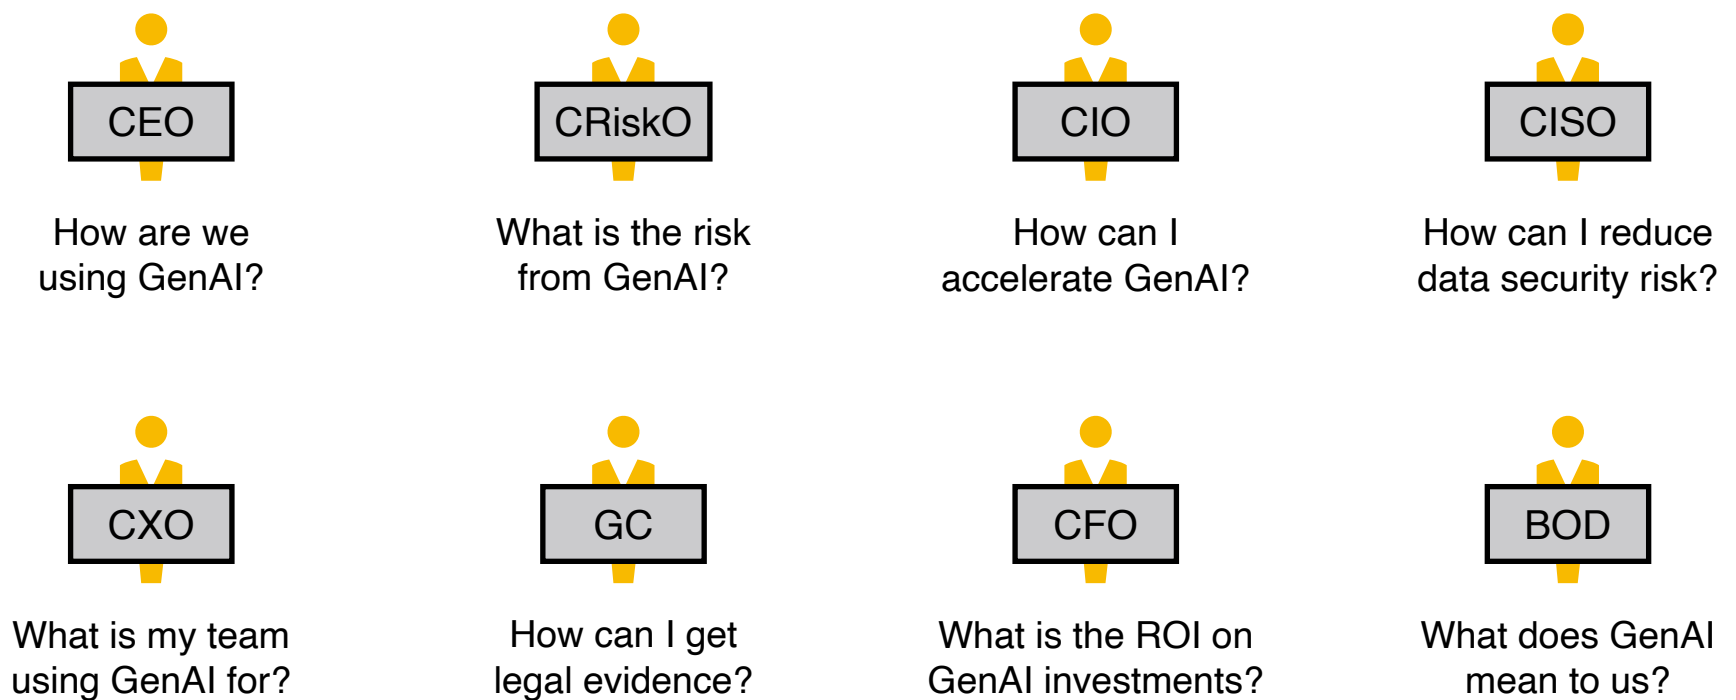

## Portal26 Key Business Value Drivers

### 1 Unblock Scaled GenAI Adoption

### 2 Align GenAI Stakeholders

### 3 Maintain Provable Posture of Due Care and Responsibility

Complete Coverage

Granular Records

Historical Auditability

Integrated Remediation
